# MILITARY OFFICERS REGULATIONS.

## REGULATIONS

RESPECTING

*Military Officers retiring from the Company's Service.*

---

Every officer after twenty-five years service in India, three years for one furlough being included, is allowed to retire with the pay of the rank to which he has attained; but such pay is to be the same only as that allowed to officers of infantry.

A member of the Medical Board, who has been on that station not less than five years, and not less than twenty years in India, including three years for one furlough, is permitted to retire from the service, and allowed £500 per annum.

A surgeon of a general hospital, who has been in that station not less than five years, and whose period of service has been not less than twenty years, including three years for one furlough, as above, is permitted to retire from the service, and allowed £300 per annum for life.

All other surgeons and assistant surgeons attached to the military, are permitted to retire from the service on the pay of their rank, after having served in India not less than twenty years, including three for one furlough.

A chaplain after eighteen years service, ten years at a military station, and including three years for one furlough, is allowed to retire with the pay of his rank.

Every lieutenant colonel, major, captain, or captain lieutenant, is allowed to retire with the *half pay* of the rank to which he has attained, in case his health shall not permit him to serve in India.

A lieutenant having served thirteen, or an ensign nine years in India, including three years for a furlough, may retire on the *half pay* of his rank, in case his health shall not permit him to serve in India.

A lieutenant is permitted to retire on the *half pay of ensign*, if his constitution should be so impaired as to prevent the possibility of his continuing in India.

Every officer returning on furlough, and wishing to retire from the service, must make a declaration to that effect, within twelve months after his arrival in England; and in case of his neglecting so to do, he must, at the expiration of his furlough, either return to India, or be held to have relinquished the service, and not be entitled to retire on pay, unless he has continued to serve in India,

from his first arrival, for the space of *twenty-two years*, without having a furlough; in that case he is allowed *two* years before he shall be called upon to signify his intention of retiring, but he can only be allowed the pay of the rank he held at the expiration of twelve months from his arrival in Europe.

Promotion in consequence of officers retiring in England, takes place from the time when such officers are permitted by the Court to retire.

#### FURLOUGH.

Subalterns must be ten years in India, before they can be entitled (except in case of certified sickness) to their rotation to be absent on furlough, and the same rule is applicable to assistant military surgeons. The furlough to be granted by the commander in chief at each presidency, with the approbation of the respective governments.

Chaplains must have been seven years in India before they can be allowed furlough, (except in case of sickness) with the pay of their corresponding rank, viz. captain.

The period of furlough is three years, reckoning from its date to the day of the return of the officer to his presidency.

No officer on furlough can receive pay for more than two years and a half from the period of his quitting India.

## WRITERS AND CADETS REGULATIONS.

---

*Extract of the Act of the Thirty-third of His present Majesty GEORGE THE THIRD, respecting Writers and Cadets.*

And be it further enacted, That no person shall be capable of acting or being appointed, or sent to India in the capacity of writer or cadet, whose age shall be under fifteen years, or shall exceed twenty-two years, nor until the person proposed or intended to be so appointed shall have delivered to the said Court of Directors a certificate of his age, under the hand of the minister of the parish in which he was baptized, or keeper of the registry of baptism of such parish : and if no such registry can be found, an affidavit of that circumstance shall be made by the party himself, with his information and belief that his age is not under fifteen years, and doth not exceed twenty-two years. Provided nevertheless, That the said restriction shall not extend to prevent the said Court of Directors from appointing any person to be a cadet, who shall have been for the space of one year at least a commissioned officer in His Majesty's service, or in the militia or fencible men, when embodied, and have been called into actual service, or from the company of cadets in the Royal Regiment of Artillery, and whose age shall not exceed twenty-five years.

## REGULATIONS

FOR THE

*Admission of Gentlemen Cadets into the Royal Military Academy at Woolwich, on the East-India Company's Establishment.*

- I. No cadet to be admitted under fourteen or above sixteen years of age, or below the height of four feet nine inches; a certificate of every candidate's birth, taken from the parish register, and signed by the minister, to be delivered to the Secretary of the East-India Company: as likewise an address where he may be sent for on a vacancy.
- II. No youth to be admitted until he is well grounded in vulgar fractions, writes a good hand, and has gone through the Latin grammar.
- III. All candidates will be examined by the proper masters, on joining the academy; and if found deficient in these preparatory parts of learning, they will be sent back to their parents, and not admitted.
- IV. It is strongly recommended, that all candidates should acquire some knowledge of the French language, previous to their joining the Royal Military Academy.

## REGULATIONS

## RESPECTING

*Cadets for the East-India Company's Artillery or Engineer Corps, who cannot be admitted into the Royal Military Academy at Woolwich.\**

---

That the cadets for the artillery and engineers of the present season, who undertake to qualify themselves at private academies, be directed to study mathematics from Dr. Hutton's Course, published in two volumes, for the use of the Royal Military Academy; which if they regularly pursue from the commencement, and enable themselves to pass an examination under Dr. Hutton, as far as Conic Sections (not included), besides acquiring some knowledge of the principles of mechanics, so as to judge of the power of machines in general, they may be considered as possessed of the same mathematical qualifications as the cadets of the academy likely to be promoted in 1803.

That they should be well-grounded in practical geometry, as introductory to drawing plans of fortification, which may be learned from Professor Landmann's work on the subject, published for the use of the academy: also, that they should be acquainted with the construction of Vauban's, and some other systems contained in Muller's Treatise, and be able to produce at least twenty plans and sections, of their own drawing. An examination to this extent, under Mr. Landmann, to be deemed sufficient, for which he may be qualified by any intelligent person, conversant in plan-drawing, with the help of the books above-mentioned: Professor Landmann also examining each candidate in the practical part of surveying, and ascertaining that he knows how to lay down and describe on paper whatever he has surveyed.

No cadet to be nominated the present season, and to qualify himself as above, shall be allowed to proceed to India, who is not seventeen years of age.

\* The following professors undertake to qualify young gentlemen to pass examination at the Academy at Woolwich, viz.

John Jones, A. B. of Brazen Nose College, Oxford, No. 10, Fetter Lane, Fleet Street.

Rev. Mr. Watson, Shooter's Hill.

Mr. Green, Deptford.

William Garrard, Ormond House, Chelsea.

Several candidates will be sent to the academy for examination at the same time, *viz.* from four to eight; and, as their regular examination will probably employ the private time of the professors for several days, that each professor be paid by each candidate such a sum for his examination as may be thought equitable by the lieutenant-governor and inspector of the Royal Academy, not exceeding three guineas each candidate to each professor.

With a view of affording encouragement to the young gentlemen now to be appointed cadets for the artillery or engineer corps in India, to exert themselves in attaining the necessary qualifications above detailed, the sum of two hundred guineas will be presented to each of them, being seventeen years of age, who shall pass his examination at the Royal Academy, and be reported qualified for a commission, each person giving bond to refund the same, if he shall not proceed to India, according to the appointment given him by the Court.

It will be expected, that every cadet, when nominated, shall be well grounded in vulgar fractions, shall write a good hand, and shall have gone through the Latin grammar.

And it is strongly recommended, that all cadets should acquire some knowledge of the French language.

29th June, 1803.

6th July, 1803. No cadet can hereafter be nominated to study under the above Regulations who shall not have attained the age of fourteen years.

## REGULATIONS

OF THE

*Royal Military College at Marlow.*

In conformity to His Majesty's regulations for this institution, no cadet can be admitted who is under thirteen, or above fifteen, years of age; or who has any mental or bodily defect, which may disqualify him for military service.

Every cadet is to produce a sufficient certificate of the time of his birth.

He is to be well grounded in a knowledge of grammar and of common arithmetic, and shall write a good hand.

Should he be found deficient in any of these elementary parts of learning, he will not be qualified for admission. -

Cadets admitted in that class, by whom the sum of ninety guineas *per annum*, is to be paid for education, board, and cloathing, are to pay a moiety of that sum half-yearly, in advance, during their continuance at the college. An army agent in London is to be named by such cadets, from whom the half-yearly payments are to be received by the treasurer; and should a cadet leave the college before the expiration of any half year, he will be accounted with for the six months in advance.

Each cadet is to come provided with seven shirts, seven pocket handkerchiefs, seven pair of short stockings, five towels, three night-caps, two black velvet stocks, four pair of drawers, two pair of shoes, a looking-glass, a prayer book, a large comb, a small-tooth-comb, a comb-brush, a cloaths-brush, a tooth-brush, and Paley's Evidences of Christianity, two volumes; all deficiencies in which are to be made good, at his charge, at the yearly vacation.

No cadet is to join the junior department with a greater sum of money in his possession than one guinea; and this regulation is considered to be so indispensable, that any deviation therefrom will subject the cadet to be sent away from the college. The parents may, however, if they think proper, make an arrangement for the cadet's receiving an allowance, not exceeding half-a-crown a week, for pocket-money.

All repairs of cloathing, linen, shoes, and other articles belonging to the cadets, will be made at the expense of the college.

No perquisites or presents, of any kind, are allowed to be received by the Masters, or any other persons, from the cadets.

As a certain number of cadets for the Royal Military College, in that class for which the sum of ninety guineas each *per annum* is to be paid, are to be nominated by the East-India Company, the Court of Directors of the said Company have agreed, that one-half of such expense, or forty-five guineas *per annum* for each cadet, and no more, shall be paid by the Company, on an engagement, in writing, being entered into by the friends or parents of the cadet, being responsible persons, on his appointment to the college, to refund the amount of the Company's expenses on his account, provided he shall enter into any other service or line whatsoever, after his being received into the college, or, if he shall not proceed to India, in the Company's military service, on receiving an appointment for that purpose.

The above-mentioned annual payment of ninety guineas, to be regulated in the following manner, *viz.*

The friends or parents of the cadet to advance to the army agent, to be named by him, the first half-yearly payment of forty-five guineas, and the Company to advance the second half-yearly payment, in like manner; and the subsequent half-yearly payments to be made alternately, by the friends of the cadet and the Company, during the time he shall continue at the college.

\* *Imaginary.*

Such is the relative table of the Bombay current and imaginary coins; while in accounts they are confined to the following reckoning 100 Reas make 1 Quarter.—4 Quarters 1 Rupee.

As to the intrinsic value of their coins, we find from STEVENS'S GUIDE, that the Board of Government in December 1738, fixed the standard weight of the Rupee at 178-314 grains: and in 1774, that the Gold Mohur was directed to be coined of the same weight, and to pass for 15 of the Silver Rupees; while in fineness it should be equal to the Venetian, thereby preserving about the same ratio at which the precious metals pass in the market.

The following table of some assays made at Bombay, by shewing the centesimal parts of alloy which they contain, will display the specific value of a variety of coins that occasionally pass with them as the medium of commercial exchange. It is also worthy of remark, that few or none of their own Rupees exist in circulation; from a privilege granted to the Nabob of Surat, whose silver coinage was permitted to circulate indiscriminately with that of the Bombay mint, and being by the abuse of this privilege so much inferior in value, has usurped the sole currency of the place.

**DRY MEASURE.**

2 Tiprees	are	1 Seer
4 Seers	—	1 Adowly or Pily
16 Adowlies	—	1 Parah
8 Parahs	—	1 Candy

This serves for wheat and all grain, except rice or batty, which is sold by the batty measures, as follows:

2 Tiprees	are	1 Seer
7½ Seers	—	1 Adowley
20 Adowlies	—	1 Parah
6½ Parahs	—	1 Candy
4 Candy, or 25 Parahs	—	1 Moora

N. B. A bag of rice weighs 6 Maunds, or 168 lb. and a Candy is equal to about 25 Bushels.

**SALT.**

Although the foregoing tables represent the commonly received standard of the gross weights at Bombay and Surat, it is not only impossible to lay down a rule whereby to judge what commodities in the market are separately governed by them; but there is a great variety of articles, too numerous to distinguish here, in the sale of which the foregoing relations do not obtain, particularly with respect to the *Surat Maund*, which, notwithstanding it is said to contain only 40 Seers, or 37 Pounds, 7 Ounces, and 6 Drams, is sometimes 41, 2, 3, through all the intermediate gradations up to 46 Seers: nor is the Candy uniformly confined to 20 Maunds: for example, Pepper and Sandalwood are sold by the *Bombay Candy* of 21 Maunds, and Cotton, the great staple commodity of their market, by the *Surat Candy* of 21 Maunds.

10 Punts are 1 Covid, equal to 14.625 Inches.

The finest gold among them is 100 touch, called Sycee, i. e. pure gold without alloy: so that if a shoe of gold touch 93, then it hath 93 parts of fine gold and 7 parts alloy.

Gold is bought by 10 tale weight, for upon that quantity they make their price in silver.

When gold is sold above or under touch, you must add to, or subtract from the touch. As if it touch 96, and is to be sold at 4, under touch, then from 96 take 4 the remainder is 92; then is 9, two tenths of silver to be paid for one of that of gold. If gold is at 96 touch, and to be sold at 8 above touch, then add 8 to 96, the sum is 104; then are 10, four-tenths of silver to be paid for one of gold.

In China all sorts of provisions, as milk, fowls, hogs, greens, &c. are sold by the Catty.

"Some curious and important Documents and Details, respecting the Army that went from India to Egypt by the Red Sea, are here given, we believe for the first time to the Public; the compliments paid to that Army are just and grateful; and the General Orders of Sir James Baird, are particularly worthy of perusal.

"In Works of this nature it would seem a waste and wantonness of criticism to dwell on slight defects and trivial errors: we shall therefore conclude with recommending Mr. Anderson's Volume to general attention, believing it to be, as his Introduction assures us it is, "an authentic record of our Country's glory."—*European Magazine*, Nov. 1802.

**THE ASIATIC ANNUAL REGISTER**; or, a View of the History of Hindustan, and of the Politics, Commerce, and Literature of Asia, for the Year 1802. To which is prefixed, a Continuation of the History of India.
